

FOOD STAMP CONTRIBUTION AGREEMENT

In accordance with the requirements of the Food Stamp administration, the program asks that all residents who receive food stamps contribute them to purchase food for the program. The program maintains a food line within its yearly budget to supplement whatever food the collective food stamps of the families does not cover. The program provides for weekly grocery shopping with the Food Coordinator and residents. It is the goal of the program to provide every family with nutritious meals and snacks. *Families will cook their own meals on the stove and convection ovens provided by the program.*

I, _____, agree to use my food stamp allotment to purchase food during the weekly grocery shopping.
